

**Dr. Olga Sevan**

**Choice of the future for development historical city (Russia, Kolomna in Moscow' Region)**

In the paper we'll tell about new and interesting Conception and Projects in one of historical city Kolomna more then 100 km. from Moscow. There are 150000 habitants and 420 monuments and 25 from them have the federal status, among them 3 monasteries and 20 churches. Historical part of the city = 519 hectares and situated on the place on the territories of confluence of two rivers: Kolomenka and Moscow-river.

This project was a winner during the competition of the Russian fund of the subject "Changing museum in changing world". The purpose of projects: Cultural comprehensions of resources and strategy of development historical city Kolomna; determination of role and place in regional, Russian and global space. Creative clusters were suggested and some of them already made within the framework of research project "Museum' posad (block). New life of the old city".
